

Socket Mobile Demo/Evaluation Units are available!

Demo units are approved based on quantity and/or strategic need or value.

The new demo program will allow customers to purchase a demo/evaluation unit. The customer will pay for the unit and receive a full refund if the unit is returned by the 1st week following the 60 day time-frame.

Demo units will be subject to inspection upon arrival before refund is granted. Shipping costs are non-refundable. Full refund is based on unit being in resellable condition. Refunds may take up to two weeks.

The [Demo Request Form](#) must be filled out prior to starting the demo process.

Once approved, the customer can purchase with Paypal or a major credit card right from our online SocketStore. The customer must enter the demo code provided by Socket Mobile in the discount field for the demo/evaluation unit and then they can select their shipping method.
