CHARGING CRADLE FOR DURASCAN 600/700 SERIES BARCODE SCANNERS

~25 Words

The charging cradle provides easy storage of the 7/700 series of scanners, while recharging scanners on a multi-angle mounting bracket, or attached to a wall.

~50 Words

The charging cradle is designed to recharge and provide easy storage of the 7/700 series of scanners. In between scanning sessions, scanners can charge on the cradle with a multi-angle mounting bracket, or attached to a wall. The cradle features a floating contact charge system for simple set up.

~100 Words

The charging cradle is designed to recharge and provide easy storage of the 7/700 series of scanners. When not in use or in between scanning sessions, scanners can charge on the cradle, set up in multiple ways. A multi-angle mounting bracket sets the cradle in different positions on a flat surface, or attaches to a wall for optimal comfort. The cradle features a floating contact charge system – simply set the scanner in the cradle to charge. An easy to view power LED indicates the cradle is ready for charging.

CHARGING DOCK FOR 600/700 SERIES PRODUCTS

~25 Words

The Charging Dock for Socket Mobile's 600/700 series provides a home to charge your scanner/reader and remains serviceable at the same time.

~50 Words

The Charging Dock for Socket Mobile's 600/700 series provides a home to charge your scanner/reader and remain serviceable at the same time. The ugly wire is eliminated with the charging dock. It incorporates small magnets to align the charging dock and the scanner/reader, firmly securing to the Charging dock for a ready to go mode.

~100 Words

The Charging Dock charges 600/700 series Socket Mobile products. Charge your scanner/reader and remain serviceable at the same time. Providing a method to use the Auto Scan feature with 2D barcode scanners or the RFID reader, the dock is ideal for scanning/reading from mobile devices. In addition, the ingenious design incorporates small magnets to align the charging dock and the scanner/reader, helping firmly secure to the Charging Dock. As a dock, the charging dock is stylish, eliminating ugly wires from site. As a charger, the dock is reliable and versatile.

CHARGING MOUNT FOR 600/700 SERIES PRODUCTS

~100 Words

Designed for placement flexibility to maximize convenience, this versatile Charging Mount was designed for the Series 7 & 700 Series barcode scanners with the purpose of positioning in a variety of convenient locations. It incorporates a small magnet built into the top of the mounting arch, making contact with the magnet housed on the bottom of the scanners, helping to firmly secure the scanner to the Charging Mount for stable charging, wherever you choose to install the mount.

CHARGING STAND WITH SECURITY FEATURE FOR 600/700 SERIES PRODUCTS

~25 Words

The Charging Stand is designed for flexible use with protective features. Charge and scan at the same time while maintaining a secure holding place for the scanner with a security cable.

~50 Words

The Socket Mobile Charging Stand is designed for flexible use with protective features to safeguard your scanner. With the auto scan feature, charge the scanner and scan items at the same time. The stand's short and sturdy stature provides a secure holding place with an attached security cable, preventing the device from being misplaced.

~100 Words

The Socket Mobile Charging Stand is designed for flexible use with protective features to safeguard your barcode scanner. With the auto scan feature, the barcode scanner can charge on the stand while remaining serviceable and stationary, simultaneously scanning barcodes without anyone pressing a button. The stand's structure is designed with safety functions – a short and sturdy stand with magnets clinging to the barcode scanner and a weighted base for a secure holding place. The addition of the attachable security cable prevents the device from being misplaced.

SECURITY BASE FOR CHARGING DOCK FOR 600/700 SERIES PRODUCTS

~25 Words

The Charging Dock with Security Base charges 600/700 series Socket Mobile products, providing a secure place to hold the scanner. Use Auto Scan with 2D barcode scanners or the RFID reader.

~50 Words

The Charging Dock with Security Base charges 600/700 series Socket Mobile products while providing a secure place to hold the scanner. Charge your scanner/reader and remain operational using Auto Scan with 2D barcode scanners or the RFID reader. The Security Base keeps the Charging Dock stable, while the attached cable prevents the device from being misplaced.

~100 Words

The Charging Dock with Security Base charges 600/700 series Socket Mobile products while providing a secure place to hold the scanner. Charge your scanner/reader and remain operational at the same time. Providing a method to use the Auto Scan feature with 2D barcode scanners or the RFID reader, the dock is ideal for scanning/reading from mobile devices. The Security Base keeps the Charging Dock stable in one spot, while the attached cable prevents the device from being misplaced. In addition, the design incorporates small magnets to align the charging dock and the scanner/reader, helping firmly secure to the Charging Dock.

SCANNER & PHONE HOLDER FOR 600/700/800 SERIES SCANNERS

~25 Words

Attach your phone and scanner together for a one-handed barcode reading solution. Simply attach and detach to switch from a dual scanning device to a singular scanner.

~50 Words

Utilize one-handed scanning by carrying your scanner or reader connected to your mobile device. Easily switch from a one-handed, dual connection to a single-device roaming option, carrying just the scanner. Simply click and snap in place to switch from both scanner and mobile to just carrying one device.

~100 Words

For improved mobility and productivity, utilize one-handed scanning by carrying your scanner or reader connected to your mobile device with the Scan and Phone Holder. Scan and monitor simultaneously with ease. When you are done with the attached mobile device, easily switch from a one-handed, dual connection to a single-device roaming option. Simply unsnap and unwrap to carry just the scanner. The Scanner and Phone Holder provides flexibility in options, providing both dual and single-device carrying options while you work. No wires, just a one-handed, mobile scanning solution.
