

DuraSled 6 Bay Charger

The 6-Port Dock is charge-only and works with any Socket Mobile DuraSled device and can charge up to six devices at a time. Supports Input Voltage Range of 100VAC-240VAC/50-60Hz, and power cord is included.

GDS Technology integrates the charging function into a docking station, which reduces the overall footprint and eliminates all cords except for the power outlet. The dock delivers up to 2 amps per port, which can power any tablet or mobile phone with USB 2.0/3.0.

Note: This charger does not support devices that require Power Delivery, (fast charging).

Specifications

Product Dimensions:	<ul style="list-style-type: none"> Overall Length: 10.4" Overall Height: 4"
Materials:	High strength composite
Output Voltage:	5V @ 2A (per port)
Power Output:	78W total (13W per port)
Weight:	4.4 lbs.
Limited Warranty :	1 year warranty
