

Barcode Scanner Charging Cradles

The Charging Cradle with medical-grade plastic is designed to recharge and provide easy storage of the D745/D755. When not in use or in between scanning sessions, scanners can charge on the cradle, set up in multiple ways. A multi-angle mounting bracket sets the cradle in different positions on a flat surface, or attaches to a wall for optimal convenience. Power LED indicates the cradle is ready. Simply set the scanner in the cradle, push down and the scanner begins charging. For additional convenience, the cradle is designed to charge scanners without having to remove the wrist strap.

Hardware Features

- Specifically designed to charge the DuraScan D745/D755 a medical-grade, scanner built for healthcare environments. The cradle housing allows for safe daily cleaning and sanitizing with popular medical-grade disinfectant solutions.
- Designed to charge DuraScan D745/D755 barcode scanner
