

DURACASE VEHICLE CHARGING DOCK

The Vehicle Charging Dock is a mounted charger for the DuraCase that provides users the freedom to charge their scanner and phone while on the go. Ideal for workers who are in and out of automobiles and need a secure, reliable holder to keep their phone and scanner charged. Essential for mobile work flow, mount the DuraCase onto the spring-loaded dock to transform both phone and scanner into an operation-ready device.

Compatible with all of Socket Mobile's DuraCases, which support a range of Apple® and Samsung handheld, smart devices.

Features:

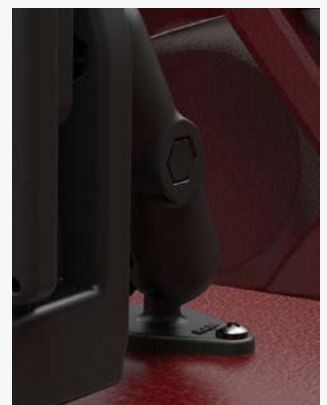

- Provides a secure location to place phone and scanner in an automobile.
- Simplifies the frequent docking and undocking of phones in business and field applications - devices always charged and ready to go.
- Drop protection and GDS® charging capabilities for DuraCase supported phones and scanners.
- Mounting Choices: twist lock suction cup or screw directly onto automobile's dashboard, console, or any flat solid surface.

Benefits:

- DuraCase and vehicle dock extend the life of devices - drop protection, shielding data ports and providing compatibility with GDS® Docks and accessories for the office, home, vehicle, and warehouse.
- Simplify the process of scaling and upgrading your devices with the ability of charging your phone and DuraCase with the same options - Charging Dock, 6 Multi-Charger, Charging Adapter, Vehicle Charger.

The vehicle charging dock comes with a double-socket arm, diamond-base adapter. With the included twist lock suction cup, mount the charger practically anywhere you want to keep your device easy to see and always within your reach. The socket technology allows for almost infinite adjustments and perfect viewing angles. Designed with a very small foot print, finding a home on the console, dashboard or windshield of your vehicle is easy.
